About the Company

WORLD PROJECTS PRO is a global platform focused on integrating structured finance, trade, and artificial intelligence. We design and execute bank-ready and audit-ready frameworks that link institutional finance with global trade execution—building credibility, compliance, and measurable value across every transaction.

Business Purpose: International trade, financial consulting, and project development, including acquisition, management, and funding of commercial ventures, technology assets, and infrastructure projects.

Core Divisions

A. Structured Finance

SBLC / BG / Credit Line architecture under ISO 20022 compliance. Pay-on-Delivery model & Escrow-linked frameworks. UBO & AML/KYC documentation packages.

B. Trade Division

Buyer–Seller matchmaking and verification. Procurement and global sourcing. Risk-off trade structuring for industrial, technology, and commodity sectors.

C. AI Systems & Digital Compliance

Intelligent documentation analysis. AI-assisted due diligence & automated reporting. Smart data rooms for institutional communication.

Mission, Vision & Values

Mission: To build trust-driven structures that connect capital, technology, and human integrity across continents.

Vision: A unified ecosystem where compliant capital and real-world innovation meet –bridging finance, trade, and AI under transparent governance.

Core Values: Integrity • Transparency • Accountability • Intelligence • Growth

Legal & Compliance

All documents conform to U.S. Treasury, BSA, FATF, and OFAC frameworks. Due diligence, escrow protocols, and non-binding structures for pre-transaction verification.
